

Environment Policy

Archean Chemical Industries Private Limited is committed to the sustainability of our natural resources while preserving the overall environment. We aim to achieve this through our business practices, namely

- To integrate environmental protection into our business strategies, processes, projects and all workplace activities, in order to manage risk as well as to add value to the enterprise.
- Comply with all statutory compliances of government and other regulatory agencies.
- Continually working to reduce the emissions and effluents of any kind.
- Adopt 3-R (reduce, reuse and recycle) philosophies for all types of waste.
- Communicate the environmental policy to all employees, customers, business associates and stake holders.
- To create awareness, encourage participation and train our employees in preserving and enhancing the ecological balance.

This policy statement will be reviewed and amended from time to time to keep pace with the changes occurring at workplace.
